EDUCATION

MIT World Peace University, Pune B.Tech Computer Science Engineering – Artificial Intelligence and Data Science CGPA : 8.83	Aug 2020 - Jul 2026
Suryadatta Junior College 12 th HSC examination 90.5 %	Aug 2020 - Mar 2022
St. Joseph High School 10 th SSC examination 93.4 %	Jun 2019 - Mar 2020

SKILLS

Programming Languages: Python, MySQL, MongoDB Data Science & Machine Learning: Pandas, NumPy, Scikit-Learn, TensorFlow, Langchain Data Analysis & Visualization: Power BI, Microsoft Excel, Matplotlib, Seaborn Technical Course Work: Machine Learning, Deep Learning, Computer Vision, Data Engineering Development Tools & IDEs: VS Code, PyCharm, Eclipse IDE, Jupyter Notebook, Google Colab
--

WORK EXPERIENCE

Data Scientist Intern - OmegaMetrix Software Computer Trading - Worked on integrating LLM-based chatbot features to improve automated user interactions and support. - Contributed to client-facing systems by developing AI-powered features that enhance functionality and user experience.	Jul 2025 - Dec 2025
QA Automation Intern - BMC Software - Worked on automating UI testing using Robot Framework, Selenium, and WatchUI, focusing on improving visual validation workflows. - Presented project outcomes and proof of concepts to the QA team, clearly explaining testing logic, approach, and results.	Jan 2025 - Jun 2025
Project Intern - MoneyTalk Financials - Processed and transformed financial data using Excel, then applied ML models like Logistic Regression and Decision Trees to uncover key trends. - Visualized insights using Seaborn and Matplotlib to support financial planning and analysis.	Jun 2024 - Jul 2024

PROJECTS

Evaluate.ai – Automated Answer Sheet Evaluation System <i>Python, Google Cloud Vision API, Sentence-BERT, NLP, AI</i> - Developed an AI-powered system to automatically evaluate handwritten and typed answers using NLP and semantic similarity techniques. - Built a secure, user-friendly platform with seamless uploads, automated scoring, and transparent evaluation workflows. - Achieved a 95% reduction in grading time; won 1st prize in both a university-level AI competition and hack-a-thon organized at MIT WPU.
Swift Rescue – Emergency Vehicle Prioritization System <i>Python, Machine Learning, IoT, RF Communication</i> - Developed an IoT-based intelligent traffic system that dynamically adjusts signals using real-time sensor data and ML models, optimizing traffic flow. - Achieved 74% reduction in emergency response time; secured a government copyright for innovation.
Face Recognition-Based Attendance System <i>Python, OpenCV, Power BI</i> - Built a real-time attendance tracker using facial recognition and custom datasets with integrated visualization in Power BI. - Authored a research paper on the system, accepted at Hinweis MLIP Conference (Feb 2025) and published in the IJET journal.

Captcha Decoder & Countermeasure System

Python, TensorFlow, Keras, JavaScript (Canvas), CNNs

- Achieved **96% decoding accuracy** on traditional CAPTCHAs using deep learning (Xception, MobileNetV2).
- Engineered an AI-resistant canvas clock CAPTCHA, tripling security effectiveness over static CAPTCHAs.

CERTIFICATIONS AND ACHIEVEMENTS

- Successfully completed a certified Udemy course on **AI & Machine Learning**, gaining hands-on skills in building intelligent systems.
- Earned a certified IBM course on **Data Fundamentals**, covering core concepts of data science, analytics, and database systems.
- Completed a certified Coursera project on **Data Analysis using Microsoft Excel**, demonstrating proficiency in handling data sets and generating reports.
- Awarded **Student Achiever of the Year 2025 - 2026** award for Outstanding All-Round Achievement in Academics, Research, Innovation, and Leadership by MIT-WPU.
- Secured a **Top 10 national rank** at VishwaNova 2026 among **700+ participating teams** from **40+ universities**, emerging as the **only winning team** from MIT-WPU.
- Secured **1st place** in HACK-AI-THON, **HACKMIT 2025** by developing an AI-powered answer sheet evaluation system, outperforming 350+ teams in MIT-WPU's flagship hackathon.
- Won the **AI Track of Smart Stack Innovators 2024**, organized by the ACM Student Chapter of MIT-WPU, for building an innovative AI solution.
- Awarded **Silver Medal** in Innoverse Coding Relay by CSI MIT-WPU, showcasing problem-solving and coding excellence.
- Achieved **1st rank** in Semester 7 (GPA: 10), **3rd rank** in Semester 5 (GPA: 9.1) and **4th rank** in Semester 3 (GPA: 8.75) for consistent academic excellence.

LEADERSHIP AND INITIATIVES

Co-Founder - NotePrep, EdTech Initiative

- Built a knowledge-sharing platform offering handwritten notes and educational videos to make technical learning more accessible and organized.

Community Service Director - Rotaract Club of Baner, Pune

- Led and managed social service initiatives focused on education, environmental sustainability, and community welfare; fostered teamwork and volunteer engagement.
